

FAITH Lamellar Mode Precare Essence & Water C How to Make and Use

FAITH
LAMELLAR MODE

Precautions

1. Please use the correct method to make the essence.
2. The essence shall be refrigerated to keep the freshness of the Fresh Collagen after using.
3. Shake the container each time before using.

1

Take the **Precare Essence C** and the **Precare Water C** out of the box.

4

Tightly close the nozzle cap and shake the bottle 20 to 30 times to fully dissolve the contents.

※Do not use the removed rubber stopper.

2

Take off the nozzle of the Precare Essence C and remove the rubber stopper.

5

Take off the small cap on the tip of the nozzle when using.

3

Carefully add the Precare Water C into the Precare Essence C bottle.

6

Lightly squeeze the nozzle for the liquid to extract the essence onto your palm.

Check the Tips for Applying During Your Daily Skin Care

How to Apply 1

Pulling your skin will result in increased wrinkles. The point is to softly place it on top of your skin.

Next, check the directions of how you apply!

Wrinkles will be created on your skin each time when you pull your skin. Make sure to apply the products by placing them softly on your skin.

How to Apply 2

Let the products penetrate* your skin by pressing it gently on the skin.

After applying the product by gently placing it all over your face, press the skin gently to let the ingredients penetrate to the stratum corneum. Apply an additional amount of the product to the troubled areas.

*To the stratum corneum.

First, check the strength of your hands when applying!

The Stratum Corneum is as thin as a saran wrap.

If you rub roughly, it will be easily damaged!

Try rubbing a plastic wrap covered on a bowl or cup with the same strength as you do for your daily skin care. If the wrap sinks or becomes loose, it means your hands are putting too much strength onto your skin.

Basic Tips

When you first use our products, use as much as your skin demands.

1

The basic amount to use is about 5-6 drops per treatment.

Press the nozzle and squeeze 5-6 drops of essence onto your hand. Add another dab at troubled areas.

2

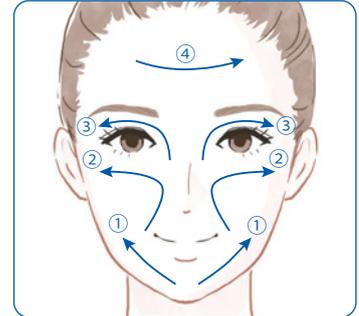

Spread the essence onto both hands quickly.

If your skin is dry while spreading, the essence may penetrate into your hands, so it is important to move it onto your face as quickly as possible.

3

Spread the essence from down to top quickly

Spread the essence from down to top quickly, and then gently pat your face to let it penetrate.

Application Tips

Try these tips and see the difference!
Application advice for trouble areas

Apply an additional 1 or 2 drops to trouble spots for focused treatment. Increase effectiveness with specific application methods!

Trouble Spot 1

Special care for face lines

Press your palms against your face lines on either side and firmly smooth upwards to promote penetration of the product. Follow your face lines for focused treatment.

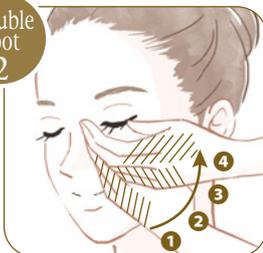

Trouble Spot 3

Pore trouble

For pores at delicate areas such as around your nostrils, use the pad of your thumb to press on the product.

Trouble Spot 2

Cheeks have lost their firmness...

(For around laugh lines common with age as well as cheeks) Starting from below, lightly pat the cheek upwards towards its original position as you apply and press in the product as shown in positions 1, 2, 3, and 4. At position 4, hold your hand in place for a few seconds as it forms the roundness of the cheek.

Trouble Spot 4

Upper and lower eyelid trouble

Use your middle and third fingers to gently smooth the product onto your eyelids while lifting them back towards their original positions.
*Be careful to not get any product into your eyes.
