

# FAITH

FAITH COSMETICS AMERICA

Step 1

## GENTLE CLEANSE

### HOW TO USE

In the morning and evening, dispense 3-4 pumps into the palm of your hand. Swirl a thin layer onto the face and smooth over lightly to remove impurities. Rinse off thoroughly with cool or lukewarm water.

Step 2

## CLAY GEL WASH & PACK

### HOW TO USE

While your face is still damp, squeeze a quarter-sized amount of the gel into your palm. Use a small amount of water and work the thick formula for easier application. Sweep onto skin in gentle circular motions. Rinse well with cool or lukewarm water. Use day and night.

Step 2 (Alternative)

## WASH

### HOW TO USE

Squeeze a dime-sized amount of WASH into your palm and work into a lather. Gently smooth over the entire face with circular movements. Rinse well with cool or lukewarm water. Use day and night.

(2 to 3 Times a Week)

## CALMING & MOIST PACK

### HOW TO USE

Once or twice a week following WASH, squeeze a quarter-sized amount of the mask into your palm. Spread a thick layer over the face — avoiding the eyes and lips. Leave for five minutes. Rinse well with cool or lukewarm water.

## KEY INGREDIENTS

**GENTLE CLEANSE** | GALACTOARABINAN — European larch tree extract that decreases moisture loss, minimizes the appearance of fine lines and gently exfoliates. PEAR JUICE FERMENT FILTRATE — An ingredient that softens and hydrates skin. ECTOIN — A natural skin protectant that hydrates and prevents UVA damage. **CLAY GEL WASH & PACK** | PHELLODENDRON AMURENSE BARK EXTRACT — Antibacterial and moisturizing. PERILLA OCYMOIDES LEAF EXTRACT — A calming extract that acts as a natural remedy for inflammation. **WASH** | GLUCOSYL RUTIN — An inflammation-fighting antioxidant. BISABOLOL — A soothing chamomile extract that reduces inflammation and helps to restore suppleness. MOROCCAN LAVA CLAY — A volcanic clay that draws out skin impurities and leaves behind nourishing minerals. GARDENIA JASMINOIDES FRUIT EXTRACT — An anti-inflammatory that soothes and moisturizes. ANTHEMIS NOBILIS FLOWER EXTRACT — A calming anti-bacterial that treats skin irritation and inflammation. **CALMING & MOIST PACK** | ECTOIN — A natural skin protectant that hydrates and prevents UVA damage. CITRULLUS VULGARIS FRUIT EXTRACT — An antioxidizing watermelon extract that protects against free radicals. ALLANTOIN — A soothing plant extract that treats irritated skin and sloughs away the outer layer of the epidermis. MAGNESIUM ASCORBYL PHOSPHATE — A Vitamin C derivative that accelerates collagen production, brightens skin, protects against and repairs UV damage, and acts as an antioxidant. FUCUS VESICULOSUS EXTRACT — A mineral-rich seaweed extract that moisturizes, increases skin turnover and suppresses melanin production. PROTEOGLYCAN — A hydrating molecule that smoothes skin, improves suppleness, and promotes collagen and hyaluronic acid production for anti-aging benefits.

# FAITH

FAITH COSMETICS AMERICA

## Step 3 PRECARE ESSENCE C

### HOW TO USE

Get a dime-sized amount into your palm. Sweep onto the face in upward strokes, then gently press for 10 seconds to ensure full absorption; layer on trouble spots. Refrigerate immediately: product effectiveness can diminish after an hour at a temperature above 68° F. Use day and night.

## Step 4 MOISTURE SERUM

### HOW TO USE

Dispense 2-3 pumps of the serum into your palm. Gently press onto skin and pat all over your face; apply an additional layer of serum over trouble spots. Use 2-3 times a week, or more for faster results.

## Step 5 HYDRATING TONIC

### HOW TO USE

Following PRECARE ESSENCE C, dispense 3-4 pumps of toner into your palm — or onto a cotton pad. Sweep over the entire face and pat lightly. Use day and night.

## Step 6 NOURISHING GEL

### HOW TO USE

Apply 2-3 pumps into your palm. Gently press onto skin and pat all over your face; apply more to trouble spots. Use day and night.

## KEY INGREDIENTS

**PRECARE ESSENCE C** | FAITH FRESH COLLAGEN — Faith's patented collagen penetrates deep into skin to strengthen the barrier function while improving hydration, firmness and elasticity. VITAMIN C GLYCOSIDE (AA-2G) — An anti-inflammatory that brightens and promotes collagen production. MEADOWSWEET — An extract that protects collagen-making fibroblasts, prevents collagen cross-linking which can cause signs of aging, and eliminates active oxygen. LONGAN SEED EXTRACT — An extract that inhibits the activity of enzymes that break down collagen, and prevents their production. **HYDRATING TONIC** | GLUCOSYLCERAMIDE — A natural plant derivative that prevents moisture loss, and promotes suppleness and elasticity. ACETYL HYDROXYPROLINE — An amino acid that accelerates skin turnover and collagen production, and also helps to improve moisture retention. HYDROLYZED PRUNUS DOMESTICA — A prune extract that brightens. PUNICA GRANATUM FRUIT EXTRACT — An antioxidant- and Vitamin C-rich extract that restores cell hydration lost with aging, improves suppleness and elasticity, and increases skin turnover. **MOISTURE SERUM** | MEADOWSWEET — An extract that protects collagen-making fibroblasts, prevents collagen cross-linking which can cause signs of aging, and eliminates active oxygen. SOYBEAN SEED EXTRACT — A plant extract that protects cells. ACETYL HYDROXYPROLINE — An amino acid that accelerates skin turnover and collagen production, and also helps to improve moisture retention. CYCLIC LYSOPHOSPHATIDIC ACID — Boosts hyaluronic acid production. ACETYL DECAPEPTIDE-3 — A potent peptide that increases the production of elastin and hyaluronic acid. GLUCOSYLCERAMIDE — A natural plant derivative that prevents moisture loss, and promotes suppleness and elasticity. **NOURISHING GEL** | MEADOWSWEET — An extract that protects collagen-making fibroblasts, prevents collagen cross-linking which can cause signs of aging, and eliminates active oxygen. ECTOIN — A natural skin protectant that hydrates and prevents UVA damage. ACETYL HYDROXYPROLINE — An amino acid that accelerates skin turnover and collagen production, and also helps to improve moisture retention. MAGNESIUM ASCORBYL PHOSPHATE — A Vitamin C derivative that brightens skin, protects against and repairs UV damage, and acts as an antioxidant. CYCLIC LYSOPHOSPHATIDIC ACID — Boosts hyaluronic acid production. CENTELLA ASIATICA LEAF EXTRACT — An antioxidant-rich extract that improves blood circulation, stops inflammation and inhibits enzymes that break down collagen bonds. CAPROOYL TETRAPEPTIDE-3 — Repairs cell structures and staves off their deterioration. ACETYL DECAPEPTIDE-3 — A peptide that increases the production of elastin and hyaluronic acid. PUNICA GRANATUM FRUIT EXTRACT — An antioxidant- and Vitamin C-rich extract that restores cell hydration lost with aging, improves suppleness
